The Reports

===== OF =====

The Officers

The President's Report

The year's record at Lakeside is naturally far more completely told in the reports of the Superintendent, Treasurer and other officers of the Hospital, and especially also in that of Mrs. North,—all of whom were on hand all the year,—than can possibly be done by a President who was absent for more than half of the year. I wish, however, to mention specially a few things, though they will also, doubtless, be found treated in these other and far fuller reports.

And first I desire to refer to the great loss Lakeside has suffered during the year through the deaths of three members of our Board of Lady Managers, and two of our Board of Trustees. Mrs. H. B. Hurlbut was a member of both Boards and had held those positions and been keenly and warmly interested in the welfare of the Hospital for as long back as I can remember. Her husband was President at the time of his death, and left further proof of his own deep interest in the Institution by leaving it \$200,000, payable from his estate upon the decease of his widow. Mrs. Hurlbut continued to exhibit the same warm hearted interest her husband had shown, and all who knew her loved her for her warm-heartedness, her sympathy, charity and many lovable qualities. Mrs. Hunter Robb began her active and helpful interest in the Hospital immediately upon her arrival here from Baltimore with her husband, who came to be Professor of Gynaecology at the Medical College, and the Head of that service in the Hospital. She has been universally recognized as the leading authority on all matters pertaining to Nursing, and all that knowledge, and her untiring active personal service as Head of our Training School Committee, has been ever at our command. Of unusual personal charm and attractiveness of person and character, her sudden and tragic death brought deep sorrow to a host of friends and admirers. Mrs. A. C. Dustin had not been so long connected with our Hospital work, but her comparatively few years of service had been sufficient to reveal traits of mind and heart that endeared her to her associates, and rendered her of much value to the Hospital.

Mr. Ralph Hickox, probably gave more time and intelligent thought to the preparation and development of the plans for the new Hospital Buildings than any one other member of the Trustees. During the entire period of preparation, and of construction as well, covering five or six years, he was untiring in his activity,

and visited many times all the leading Hospitals of the Country. Whatever of merit our present plant possesses, in its arrangement and general lay-out, is due, I think, more to him than to any other one person. And that same active and wise interest he continued to display as Member of the Board of Trustees, Member of its Executive Committee, and Vice President, for many years after, and felt, I am sure, up to the day of his death; although for the last three or four years he was but too seldom with us. He was highly esteemed and much loved friend to all of us. Last summer the Hospital lost also, though fortunately not by death, the services of a man who had been actively connected with the Hospital as long almost, if not quite, as Mrs. Hurlbut. In July Dr. Dudley P. Allen retired from all active practice of his profession, resigning his position also as Professor of Surgery at the Western Reserve Medical College and as Chief Surgeon at Lakeside.

Of his reputation as a surgeon it is unnecessary to speak; it was known of all men; but we can truthfully and gladly testify to the unusual devotion he invariably exhibited in the fulfillment of every duty he assumed at this Hospital.

Last spring, while your President was abroad, some of his fellow Trustees took the occasion of the receipt of the Hurlbut bequest to make a special effort to liquidate all the indebtedness of Lakeside at one time, including a considerable accumulated deficit from several years back; and the effort was completely successful. It was a most pleasant home greeting for me, and I am very grateful to all concerned in it.

The new Pavilion erected by Mr. Oglebay and the new addition to the Nurses' Home have both been completed during the year, and are found so almost indispensable in the daily operation of the Hospital, that we wonder how we could have got on so long without them. There are many other things of interest that have occurred during the year, but they have all been spoken of in other reports, so I will close by mentioning only our great regret that Miss Ellis, who came with Superintendent Ranney, and who served us so faithfully for many years, as Principal of our Training School, was compelled to resign by reason of failing health. No institution ever had a harder working, more devoted officer.

SAMUEL MATHER, *President.*

Report of the Secretary of the Board of Managers

The records of the Board of Managers for the year 1910 in many respects are unlike those of former years and may go down in history as one most notable.

Appreciating his great need of rest from all active duties the prolonged absence of President Mather was cheerfully accepted and good news from him always added encouragement for all the arduous work of the Hospital. Gen. Garretson, the Vice President of the Trustees, was seldom able to attend the monthly meetings of the Board but Mrs. Sheffield, the Vice President of the Board, was always present and the duties of the office most efficiently transacted.

The new year had only been reorganized as it were and plans for the same outlined for making the future a new record for enlarged equipment in every way when, in January, we were called as mourners by the death of Mrs. Hurlburt, the widow of the first President of the Hospital, the oldest member of the Board who, although for some years had been obliged to deny herself any active service, never ceased to keep in touch so far as possible with everything connected with the Hospital.

Like "lightning from a clear sky" one day in April word came to us that without warning, by a terrible accident, Mrs. Hunter Robb had lost her life. For fifteen years she had been a member of the Board and with her well known experience, so far as the training and care for nurses was concerned, she was, as it were, a dictator in that line.

Her interest in the building and furnishing the new Home for these same nurses was at the time of her death the matter for her greatest enthusiasm. Her name is written upon the roll of honor throughout the world and we can add nothing, only join as mourners and keep her memory green.

Once again we were saddened by the death of Mrs. A. E. Dustin, whose record during her membership on the Board had been especially as one always welcome at the bedside of the sick and suffering and whose kind words of sympathy will, without doubt, be to many a life-long memory. At the Board meetings her genial presence and active interest in the work of the Hospital will not soon be forgotten.

It is not by the records of the Secretary that the work of the Board by its various committees can in any way show the results of the year, since the few words which this report contains can only be a brief outline of the arduous work of each during the entire time.

The matter of greatest interest during the year has been the finishing, furnishing, and at last the occupancy of the New Home for the Nurses.

For this a special Furnishing Committee appointed just at the close of last year by their records will show in how very thorough and expeditious a manner the work has been accomplished and while at times dire confusion was an absolute necessity it was only by the constant watchful care of our Superintendent and of all those in charge of the various departments that any order was brought out of chaos.

The Inspection Committee which heads the list of the Executive Committee is always watching and looking for the further improvement in all departments coming under their special outlook and seldom is it that something new as an experiment or as a necessity is not brought by them to the notice of the Superintendent for discussion, awaiting his approval or otherwise.

For a long time the most perplexing matter had been the serving of food and the quantity served to the patients since in both it was shown that the waste each day was an extravagance which in no way added to the comfort or satisfaction of the patient. After much general discussion, by the unanimous approval of the Board a special Committee was appointed to be called the Menu Committee.

The records of the meetings of that Committee with the Superintendent will never be written, but the result of many and various experiments is a daily menu card from which each patient (excepting those having special diet ordered by the physician) may select

the variety or quantity desired and both for the best satisfaction of the patient and the saving in the culinary department it is now pronounced a great success.

While it is the intention and desire of the Committee to look to the order, cleanliness, needed repairs and other matters such as belong to the housewife, it has been a more trying work this year owing to disorder caused by the various changes, but they must acknowledge the help given by all in every department.

Each year the report of the Linen Supplies Committee has shown increase in the work calling for constant watchfulness to systematize the different departments so that wear and tear shall be as economically looked after as the furnishing the constant call for new supplies. When word came to the Committee that the new building was nearing completion and the work of the Furnishing Committee would in no way be finished until the Linen Supplies for each and every department should be in readiness it seemed an impossible problem for their solution. The increase in the cost of all needs added to the work, but laying aside all thought of discouragement with the earnest and faithful help of all in every department, thus far the supplies have met the demand and the future is being outlined to meet all necessities.

The help given by different Church Guilds is now each year looked for and never has there been a disappointment and the work always appreciated.

The Flower and Entertainment Committee in their last year's report were confident that the outlook for 1910 was most promising, as they had made preparations for more of everything in the way of out door attractions. The season, however, did not meet their efforts and expectations; but not in any way discouraged, new plans for 1911 are already arranged, hoping for greater results with much less expenditure. The same attractiveness in the decorations for the Graduation Exercises and Holidays are always in evidence.

The last report of the Committee, which includes the outcome of the preparations for this last Christmas, shows more than usual expenditures through the liberal use of money and time, so that no patient in the Hospital failed to receive a timely Christmas greeting and for the children a Christmas such as they never dreamed of, Santa Claus even, answering their letters by sending at least one or more of the requests therein contained.

The Library Committee reports frequent additions made to the eight hundred volumes of last year which furnishes reading for all those whose duties occasionally give time for study or recreation.

To keep in touch with the every day news more or less regular subscriptions for magazines and papers are constantly on hand and, as ever, donations in this line are greatly desired. Each month's report never fails to list donations of books and magazines partly used but very serviceable for the patients to while away the weary time and the supply does never over-reach the demand.

The name Donation and Invitation Committee, while it may imply the duties of the same, in no way conveys a conception of the careful and intricate work necessary to carry out the details which include all invitations by letter or card for Graduating Exercises, Thanksgiving and other entertainments, all arrangements for printing, a complete list each month of all donations, etc., etc. These duties involve much responsibility and require much time and for all this the Committee endeavor never to be delinquent.

The Monthly reports of the Visiting and Relief Committee are of great interest since they include especially the work of the Visiting Nurse, whose varied duties call for much personal labor. Many hours spent in the Dispensary and the Hospital wards, out door calls made often on old patients in their homes, daily new patients added to the list give little idea of this good work for the relief of the sick and suffering in many ways. Through the new Clearing House now in successful operation many cases can now be referred to the Associated Charities, which often is a great relief to the Visiting Nurse.

At times clothing must be provided, especially for infants and small children and just now the Committee are under great obligations for twenty-eight articles of clothing received from the Women's Guild of the Goodrich House and special donations of this kind at any time can never fail to be of great service.

The work of the Kindergarten Committee appeals to the heart of every mother, for it is the youngest and most helpless that are found in their department and the demands from those in charge must always be the most arduous and trying. For the past year there has been less disturbance in the ward than reported last year, owing during that time to many alterations made and later a quarantine for weeks.

The Committee have been successful with only few intervals in securing visits each week by young ladies of our city who, with Kindergarten work and other amusements, have added much to the happiness of the children and afforded rest for the time for those in charge, which was always appreciated. Of these young ladies some have been for years continuous visitors. This last Christmas the young ladies themselves furnished the Christmas tree, larger and with many more elaborate decorations than ever before and the happy, joyful cries of the little ones at sight of the tree and later when their arms were filled with gifts from the same, must well have repaid those whose benevolence had made the same possible.

With this the records for 1910 are closed with the hope and trust that those of 1911 may be with less sad memories, but with no less confidence that with the looked for and hoped for increase of the good work of the Hospital the requirements for every department within the province of the Board may with the never failing care and advice of our Superintendent and the faithful work of all employees be met with the same effort which admits no hint of discouragement, but always solves these yearly problems.

Respectfully submitted,

ANNA M. NORTH, *Secretary*.

ENDOWED BUILDINGS, WARDS AND BEDS

Buildings have been erected as follows:

- One by Mrs. Anna M. Harkness, wife of Mr. Stephen V. Harkness, in memory of their daughter, Jennie.
- One by Mr. J. L. Woods, in memory of his wife, Emily A. Woods.
- One by Mr. Leonard C. Hanna, Contageous Isolation Building.
- One by Mr. E. W. Ogelbay, Office Entrance Building.
- One by Mr. Samuel Mather, in memory of his wife, Mrs. Flora Stone Mather, Residence for Nurses.

Wards have been erected as follows:

- One by Mr. Fayette Brown in memory of his wife, Cornelia C. Brown.
- One by Mrs. Anna Y. Root in memory of her husband, Mr. Ralph R. Root.

Private rooms may be endowed in perpetuity on payment of \$10,000.00 and upwards, according to size and location.

Rooms have been endowed as follows:

- One by Mr. Thomas Burnham in memory of his wife, Maria Louisa Burnham.
- One by Mr. Jephtha Homer Wade in memory of his father, Mr. Randall P. Wade.
- One by Messrs. J. B., S. E. and George Williamson in memory of their mother, Mrs. Mary E. Williamson.
- One by Mrs. Mary H. Chisholm, Mr. Alvah S. Chisholm and Miss Jean Chisholm in memory of Mr. William Chisholm.

Beds in open wards may be endowed in perpetuity on payment of \$5,000.00 and annually on payment of \$300.00.

Beds have been endowed as follows:

- The "Harry Brown Bed" by Mr. and Mrs. H. H. Brown.
- The "Laura Hickox Bed" by Mr. C. G. Hickox.
- One by Miss Ella F. Hubby in memory of her mother, Mrs. Margaret E. Hubby.
- One by Mrs. E. Leffingwell.
- One by Mrs. Jay C. Morse in memory of Mary A. Morse.
- One by Mrs. Seville H. Morse.
- The "Addie Ford Bed" by Mrs. Cornelius C. Ford and Mrs. Elizabeth C. Reed.
- The "Stephen V. Harkness Bed" by Mrs. Anna M. Harkness.
- Two by Mr. Benjamin Rose to be known as the "Mrs. Benjamin Rose Memorial Beds."

Report of the Superintendent

Cleveland, Ohio, January 1, 1911.

**To the Board of Trustees of the Lakeside Hospital,
Gentlemen:—**

I beg to submit a report of the work done at Lakeside Hospital for the year ending December 31st, 1910.

The average daily attendance in the wards of the Hospital for the year was 212.2, an increase of 3.2 patients per day over the preceding year. The total number of days of treatment was 77,436, an increase of 1,101.

The total number of visits made to the Dispensary during the year was 41,089, a very slight increase over the attendance of 1909. There were 19,153 prescriptions written and 6,952 surgical dressings done. The combined total of days of free treatment in the wards of the Hospital and in the Dispensary this year was 74,678 days.

The resident obstetrician and the obstetrical visiting nurse, accompanied by the pupils of the Training School, have attended in the districts 263 confinements during the year, and the total number of visits made to obstetrical cases by the pupil nurses of the School during the year was 9,171.

The socail service visiting nurse has visited 497 patients in their homes for the purpose of investigation. She made a total of 2,220 visits to patients, and 270 patients have been referred to other charitable organizations in the city.

The orthopaedic department has manufactured 190 braces and apparatus of different kinds for the Hospital and 195 braces were made and sold to outside surgeons.

The Hospital maintenance expenditures of this year shows an increase of \$13,626.30; the Hospital receipts show an increase of \$5,585.95, therefore, the net increase of cost of running the Hospital for the year is \$7,767.35.

**The Disbursements of the Expenditures Are Shown in the Following
Tables:**

| Emergency Ward Patients | 232.60 |
| Dispensary | 3,451.60 |
| Miscellaneous | 3,310.30 |

\$97,072.76

The gross per capita cost for the year was \$2.54. This estimate is based upon the entire cost of running the Hospital, including extraordinary expenses, such as: Insurance, rebates, money paid ambulance owners, commission on collections, commission on X-Ray work, real estate improvements, new equipment, cost of operating free Dispensary, Pathological Department, Social Service Department, and the outside Obstetrical Department.

If the above items of expenses be deducted from the total expenditure it would make a net per capita cost of \$2.25. In reporting the per capita cost it should be taken into consideration that Lakeside Hospital maintains a private ward pavilion of 63 rooms in addition to its open ward capacity of 207 beds.

Improvements.

During the year the Flora Stone Mather Memorial building for use as a residence for nurses, was completed. The original residence for nurses has been entirely rehabilitated, to conform with the new structure, so that we now have a magnificent five-story building containing 126 single rooms besides class rooms, dining rooms, reception room, recreation room and a library.

Acting upon the advice of Mr. W. J. Rice, consulting engineer, work was begun early in the spring to build a sewer on Lakeside Avenue in front of the Hospital, to intercept all the water flowing from the south side of the street under the foundation of our Hospital buildings. The wisdom of expending quite a large sum of money for this work has already been realized. The amount of water that is now intercepted daily is about 500 barrels. Numerous borings made previous to the construction of sewer revealed stratas of quicksand varying in thickness before reaching the solid clay bottom. Another sewer, built previously on the north line of the Hospital property, at the base of the retaining wall, which intercepted into the lake about 15 barrels per day before the larger sewer on Lakeside Avenue was constructed, has entirely ceased to flow, which indicates to us that the foundations of the Hospital buildings are much more stable than formerly.

Social Service Department.

The work of this department during the year has progressed most satisfactorily. Miss A. M. Ranney, who has been the Hospital visiting nurse for two years, resigned her position late in the year to take up other work in Oregon. We parted with Miss Ranney's services very reluctantly; she was a most efficient social worker. Miss M. E. Allen, formerly a head nurse at Lakeside Hospital, and

more recently connected with the Visiting Nurse Association of this city, was chosen as her successor. Miss Allen, we believe, is qualified in every respect to successfully perform the duties of the Social Service Nurse.

Obstetrical Department.

A year ago we arranged to give our pupil nurses their obstetrical training in the city districts. A resident obstetrician and a graduate nurse of experience in obstetrical work, were engaged to instruct our nurses in the practice and theory of obstetrics. The obstetrical department of the Western Reserve Medical College offered us the services of their visiting nurse as instructress to our pupils in ante and post partum work. There existed in our minds considerable doubt as to whether this plan of giving our nurses obstetrical instruction without the aid of a hospital ward would work out satisfactorily. We chose an unfavorable season of the year to begin our operations; the weather was cold and stormy, and as the nurses had no other means of conveyance than the street cars, they were greatly handicapped and suffered many hardships, as they were called out much during the night. In spite of the unfavorable conditions in the beginning, the work and interest increased, until at the present time we have a very active outside obstetrical service, and the nurses who have received their training in this work during the past year, have expressed themselves as being exceedingly well satisfied with the experience they have obtained.

Dr. G. B. Farnsworth resigned his position as first Resident Obstetrician after a few months. We filled in with substitutes until the first of December, when Dr. A. A. Rosenberry, for a year interne on the Gynaecological Service, accepted the position of Obstetrical Resident for six months.

Orthopaedic Department.

The accommodations for the manufacture of orthopaedic braces is rather inadequate. There have been more braces made to order in the shop this past year than during the preceding year. This year we added a second man to our force to assist in the manufacture of braces. The calls for braces from physicians and surgeons other than those connected with the Hospital, is on the increase, and I feel that we cannot remain much longer in our present accommodations but will have to appropriate more space for the use of this department.

Donations.

Mr. H. M. Hanna gave a sum of money for the erection of a plant for the manufacture of nitrous oxide gas. This plant has been installed and in use for about two months. We anticipate that the Hospital will save a large amount of money by having our own manufacturing plant. The use of nitrous oxide gas as an anaesthetic has become very common here and indications point to its more frequent use in the future.

A room in the men's medical ward, which has not been much used for the care of the sick, was converted into a clinical laboratory for the Medical Service of the Hospital. Dr. Edward F. Cushing, of the Visiting Staff, generously offered to equip this laboratory with all the modern apparatus for the different analyses. As the main laboratory of the Hospital was situated in another part of the institution, the physicians find this more convenient.

Changes in Staff.

I speak with great feeling of the loss of Miss Ellis, the head of the Lakeside Hospital Training School for Nurses since 1902. Overwork in 1909 during the period of construction of the Nurses' Residence, followed by an acute illness early in the winter of that year, forced Miss Ellis to give up her duties temporarily and seek rest in a sanatorium. Her breakdown was complete as her powers of recuperation were not strong, she failed to make any improvement until recently. I am glad to report that she is now able to leave the sanatorium and is at her home in Canada, where she is regaining her health very rapidly.

The only change I have to report in the personnel of the Executive Staff of the Hospital is the resignation of Miss S. E. Ranney, the Hospital bookkeeper. She resigned in the summer on account of poor health. Miss E. Landaw, formerly with Ernst and Ernst, Certified Public Accountants, succeeded her.

I wish to express to the Trustees, the Lady Board of Managers, and the Visiting Staff, my appreciation of their help and loyalty, for their advice and assistance. I also wish to express to those associated with me in the Hospital my appreciation of their loyalty and faithfulness.

ARCHIBALD J. RANNEY, M. D., *Superintendent.*

*The last year the Hospital paid special nurses for their services. The per capita cost has been computed from the above statistics by dividing the total expenditures—less the cost of operating dispensary, pathological department, new equipment, insurance, ambulance (amount paid ambulance owners), permanent improvements and amount paid special nurses—by the daily average number of patients treated.

FLORA STONE MATHER MEMORIAL HOME FOR NURSES

Report of the School for Nurses

To the Board of Trustees of the Lakeside Hospital.

Gentlemen:

I herewith submit the thirteenth Annual Report of the Lakeside Hospital School for Nurses for the year ending December 31, 1910.

As a result of the examinations held during the month of May, the following pupils were awarded prizes by the Hospital:

Third year pupils: 1st prize, Miss Nelle P. Burlingame, Erie, Kansas.
2d prize, Miss Betty Ione Hinds, Caledonia, Ohio.
Second year pupils: 1st prize, Miss Lulu Hawthorne, Cambridge, Ohio.
2d prize, Miss Ethel Hanson, Cleveland, Ohio.
First year pupils: 1st prize, Miss Florence Nesbitt, Cleveland, Ohio.
2d prize, Miss Mary Fayram, Port Huron, Michigan.

The special prizes offered by the Hospital for the best papers upon a subject selected by the Training School Committee were awarded as follows:

1st prize: Miss Lena Steuer, Cleveland, Ohio.

2d prize: Miss Clarabel Schofield, Kenton, Ohio.

The subject chosen was: "The Nursing Care of Pneumonia."

The special prize offered by Dr. Edward F. Cushing for the best paper upon "The Management of a Case of Scarlet Fever in a Private Household" was awarded to Mrs. Flora A. Luethi, Ashtabula, Ohio.

There have been no marked changes in the general course of instruction for the year.

| | |
|---|----|
| Number of probationers admitted during the year..... | 47 |
| Number of probationers accepted during the year..... | 28 |
| Number of probationers not accepted or resigned..... | 17 |
| Number of pupil nurses dismissed during the year..... | 3 |

Third year pupils, 31; second year pupils, 24; first year pupils, 11; probationers, 27; total, 93.

Resignations

Miss Grace Toot, to become Anaesthetist at Huron Road Hospital.

Miss Estaiene M. De Peltquestangue, to do private nursing.

Miss Mary E. Allen, to do visiting nursing.

Miss Florence Ashton, at home.

Miss Alice Minor, to do private nursing.

Appointments

- Miss Grace Noble, class 1906, Lakeside Hospital School for Nurses,
Supervisor of Probationers.
- Miss Kathleen Mooney, class 1910, Lakeside Hospital School for
Nurses, Night Supervisor.
- Miss Belva Hamilton, class 1907, Lakeside Hospital School for
Nurses, Head Nurse, Gynaecological Operating Room.
- Miss Caroline Wuertz, class 1910, Lakeside Hospital School for
Nurses, Head Nurse, Ward "H."
- Miss Margaret Campbell, Royal Victoria Hospital, Montreal, Head
Nurse, Ex. Operating Room.
- Miss Katherine L. Beecher, Jackson Sanatorium, Dansville, New
York, Head Nurse Ward "M."
- Miss Gertrude Squire, Royal Victoria Hospital, Montreal, Head
Nurse, Ward "L."

The completion of the new Nurses' Home has given beautiful
and comfortable quarters for our nurses.

To the physicians who have continued to show their interest in
the School and have so generously given their time to instruction
to the nurses, we wish to extend our thanks.

Respectfully submitted,

LOTTIE A. DARLING,

Acting Principal of the School.

Total Diagnoses 843

The total number of diagnoses exceeds the actual number of patients, from the fact that an individual patient often presents several distinct pathological conditions.

THE GYNAECOLOGICAL SERVICE

Operations

| | |
|--|-----|
| Abdominal Abscess; Incision of..... | 3 |
| Abdominal Irrigation and Drainage..... | 8 |
| Abortion; Completion of..... | 15 |
| Accouchement Force | 1 |
| Adenoids; Removal of..... | 2 |
| Amputation of Fingers..... | 6 |
| Amputation of Labium..... | 2 |
| Amputation of Toes..... | 4 |
| Amputation of Urethra..... | 1 |
| Anterior Colporrhaphy | 34 |
| Appendectomy | 145 |
| Aspiration (Vaginal) of Follicle Cyst..... | 2 |
| Bunions; Excision of..... | 1 |
| Cauterization of Labial Ulcers..... | 1 |
| Cervix; Amputation of..... | 15 |
| Cervix; Cauterization of..... | 4 |
| Cervix; Removal of Polyp..... | 1 |
| Cervix; Stump of Former Hysterectomy, Removal <i>per Vaginem</i> | 1 |
| Clamping of Broad Ligament..... | 1 |
| Corpus Luteum, Calcified, Excised..... | 1 |
| Curettage and Cauterization of Carcinoma..... | 6 |
| Curettage of Condylomata..... | 1 |
| Cystectomy; Ovarian | 2 |
| Cystoscopic Examination (under Ether)..... | 1 |
| Dermoid of Neck; Excised..... | 1 |
| Dilating Cervix and Curetting Uterus..... | 237 |
| Dilating of Sphincter Ani..... | 5 |
| Dilating of Vagina..... | 1 |
| Electrolysis of Urethral Carcinoma..... | 1 |
| Examination under Anaesthesia..... | 5 |
| Excision of Bartholin Gland..... | 3 |
| Excision of Urethral Caruncle..... | 3 |
| Excision of Omentum..... | 1 |
| Exploratory Laparotomy | 5 |
| Fibroma Molluscum; Excision of..... | 1 |
| Fibromata of Breast; Excision of..... | 1 |
| Haemorrhoids; Clamp and Cauterize..... | 4 |
| Haemorrhoids; Ligate and Cauterize..... | 10 |
| Hysterectomy; Pan-Supra—Pubic | 6 |
| Hysterectomy; Supra-Vaginal Amputation..... | 21 |
| Hysterectomy; Vaginal | 14 |
| Incision and Drainage of Bartholin Abscess..... | 4 |
| Incision of Fistula in Ano..... | 2 |
| Incision of Hymen..... | 2 |
| Incision and Drainage Ischio-Rectal Abscess..... | 1 |
| Incision of Prepuce (Male)..... | 1 |
| Induction of Abortion..... | 4 |
| Induction of Labor with Vorhee's Bag..... | 1 |
| Myomectomy | 13 |
| Oophorectomy, Unilateral | 10 |
| Ovary; Partial Resection of, Bilateral (3 Patients)..... | 6 |
| Ovary; Partial Resection of, Unilateral..... | 18 |
| Perineorrhaphy | 109 |
| Perineorrhaphy; Complete Tear..... | 1 |
| Removal of Abdominal Sponge..... | 1 |
| Repair Hernia; Femoral..... | 1 |
| Repair Hernia; Inguinal..... | 4 |

THE GYNAECOLOGICAL SERVICE

Operations

| | |
|---|-------|
| Repair Hernia; Ventral..... | 10 |
| Repair Recto-Vaginal Fistula..... | 1 |
| Resection Abdominal Scar..... | 1 |
| Resection Part of Tube..... | 5 |
| Resection of Subperitoneal Cyst..... | 1 |
| Salpingectomy; Bilateral (9 patients)..... | 18 |
| Salpingectomy; Unilateral..... | 43 |
| Salpingo-Oophorectomy; Bilateral (48 patients)..... | 96 |
| Salpingo-Oophorectomy; Unilateral..... | 63 |
| Separation of Adhesions..... | 22 |
| Shortening of Round Ligaments..... | 1 |
| Skene's Gland; Drainage of..... | 1 |
| Suspension of Uterus (Primary)..... | 25 |
| Suspension of Uterus (Supplementary)..... | 65 |
| Tonsillectomy..... | 5 |
| Trachelorrhaphy..... | 24 |
| Vaginal Incision..... | 13 |
| Vaginal Cyst; Excision of..... | 1 |
| Vaginal Cyst; Drainage of..... | 1 |
| Total Number of Operations..... | 1,151 |

Statistics

| | |
|---|-------|
| Number of Patients Discharged..... | 446 |
| Number of Patients Operated..... | 436 |
| Number of Operations Performed upon 436 Patients..... | 1,151 |
| Number of Abdominal Sections among 436 Patients..... | 211 |
| Number of Deaths following Abdominal Section..... | 5 |
| Number of Deaths among 446 Patients..... | 8 |
| Mortality for Abdominal Sections..... | 2.37% |
| Mortality for Total Operations..... | 1.56% |
| Deaths Following Operations..... | 7 |

Deaths following abdominal operations were divided among the following operators:

| | |
|--------------------------|---|
| Dr. William H. Weir..... | 4 |
| Dr. Hunter Robb } | 1 |
| Dr. Joseph T. Smith } | |

THE GYNAECOLOGICAL SERVICE

Mortality

| NUMBER. | DIAGNOSIS. | OPERATION. | CAUSE OF DEATH. |
|---------|---|---|----------------------------|
| 3728 | Myoma Uteri Adherent Appendix | D. & C. Appendicectomy Supra-Pubic Hysterectomy Right Salpingo-Oophorectomy. Left Salpingectomy | Bronchial Pneumonia. |
| 3737 | Bilateral Follicular Hypertrophy Retroversion. Enlarged Hyd- tid of Morgagni..... | D. & C. Removal of Tag of Vaginal Mucosa. Appendicectomy. Resection of Part of Left Ovary. Right Salpingo - Oophorectomy Left Salpingectomy. Suspension. | Acute Diffuse Peritonitis. |
| 3778 | Pregnancy. R. V. O. Retroversion | Smith-Hodge Pessary. Anterior Colporrhaphy. Perineorrhaphy | Suppurative Parotitis. |
| 3840 | Papillary Cystadenoma of Right Ovary. Carcinoma Cervicis Uteri. | Bilateral Salpingo Oophorectomy | Carcinosis. |
| 3846 | Bilateral Tubo - Ovarian Abscess Chronic Appendicitis. | D. & C. Bilateral Salpingo-Oophorectomy Resection of Subperitoneal Cyst. Appendicectomy | Acute Diffuse Peritonitis. |
| 3925 | Pregnancy. Incomplete Infected Abortion. Pernicious Vomiting.. | D. & C. Completion of Abortion | Puerperal Septicaemia. |
| 3910 | Myoma Uteri, Interstitial. | Pan-Hysterectomy, with Bilateral Salpingo - Oophorectomy | Acute Diffuse Peritonitis. |
| 4043 | General Carcinosis; Recurrence of Cervical Carcinoma. Partial Intestinal Obstruction. | None | General Carcinosis. |

The Pathological Laboratory

Report for the year ending December 31, 1910. Ninety-six autopsies were performed. The main lesions found in each were as follows:

GENERAL INFECTIOUS DISEASES.

| | |
|-------------------------------------|---|
| Typhoid Fever | 6 |
| Tuberculosis, General Miliary | 3 |
| Septicemia | 3 |

VISCERAL LESIONS

Inflammatory

Heart and Vascular System

| | |
|--------------------------------------|---|
| Acute Myocarditis | 1 |
| Acute Endocarditis | 4 |
| Chronic Endocarditis | 5 |
| Chronic Pericarditis | 1 |
| Chronic Aortitis Syphilitic | 1 |
| Acute Thrombo-Phlebitis, Jugular.... | 1 |
| Thrombosis of Adrenal Veins..... | 1 |
| General Arteriosclerosis | 4 |
| Aneurism, Abdominal Aorta..... | 1 |

RESPIRATORY SYSTEM.

| | |
|-------------------------------------|---|
| Pneumonia, Acute Lobar..... | 3 |
| Pneumonia, Broncho | 4 |
| Gangrene of Lung | 1 |
| Pyo-Pneumothorax | 1 |
| Empyema | 2 |
| Pulmonary Tuberculosis, Acute | 1 |

GASTRO-INTESTINAL SYSTEM AND ITS GLANDS.

| | |
|--|---|
| Parotitis, Acute Suppurative, Post Operative | 1 |
| Gastric Ulcer | 1 |
| Gastric Dilatation, Acute | 1 |
| Enteritis, Haemorrhagic | 1 |
| Gangrene of Ileum, (Hernia)..... | 1 |
| Gangrene of Appendix | 3 |
| Acute Diffuse Peritonitis, Post Operative | 5 |
| Acute Pelvic Peritonitis | 1 |
| Tuberculous Peritonitis | 1 |

GENITO-URINARY SYSTEM.

| | |
|---------------------------------|---|
| Acute Diffuse Nephritis | 1 |
| Chronic Diffuse Nephritis | 1 |
| Prostatic Hypertrophy | 3 |

NERVOUS SYSTEM.

| | |
|---|---|
| Acute Meningitis (Colon Bacillus).... | 1 |
| Chronic Meningo-arteritis (Syphilitic). . | 1 |
| Serous Meningitis | 1 |
| Acute Meningitis, Secondary to Otitis Media | 1 |
| Acute Meningitis, Secondary to Mastoiditis | 1 |

GENERAL CONSTITUTIONAL LESIONS.

| | |
|-----------------------------|---|
| Purpura Haemorrhagica | 2 |
| Exophthalmic Goitre | 1 |
| Marasmus | 4 |
| Pernicious Anemia | 1 |

CONGENITAL LESIONS.

| | |
|--|---|
| Congenital Malformation of Heart.... | 2 |
| Congenital Hernia, Umbilical, of Liver | 1 |

NEOPLASMS.

| | |
|-------------------------------|---|
| Carcinoma of Oesophagus | 2 |
| Carcinoma of Tongue | 1 |
| Carcinoma of Stomach..... | 1 |
| Carcinoma of Pancreas | 1 |
| Glioma of Cerebellum | 1 |

TRAUMATIC LESIONS.

| | |
|--------------------------------------|---|
| Bullet Wounds, Abdomen | 1 |
| Bullet Wound, Thorax | 1 |
| Bullet Wound, Head | 1 |
| Fracture of Skull | 2 |
| Fracture of Vertebra, Cervical | 2 |
| Fracture of Femur, Communitied.... | 1 |
| Fracture of Tibia, Compound | 1 |
| Rupture of Liver | 1 |

POISONING.

| | |
|--------------------------|---|
| Carbolic Poisoning | 2 |
|--------------------------|---|

SURGICAL PATHOLOGY.

| | |
|-------------------------------|-----|
| Number of Specimens Examined. | |
| General Surgical Service..... | 324 |
| Private Ward Service | 519 |
| Gynaecological | 369 |

The Staff

Medicine:

| | |
|-----------------------------|----------------------|
| C. F. Hoover, M. D..... | Director |
| John Phillips, M. D..... | Physician in Charge |
| Andrew R. Warner, M. D..... | Assistant Physicians |
| Richard Dexter, M. D..... | |

Diseases of Children:

| | |
|----------------------------|---------------------|
| E. F. Cushing, M.D..... | Director |
| John MacLachlan, M. D..... | Physician in Charge |
| L. A. Pomeroy, M. D..... | Assistant Physician |

Diseases of the Nervous System:

| | |
|---------------------------|---------------------|
| H. S. Upson, M. D..... | Director |
| C. W. Stone, M. D..... | Physician in Charge |
| F. C. Hutchins, M. D..... | Assistant Physician |

Diseases of the Skin:

| | |
|--------------------------|---------------------|
| W. T. Corlett, M. D..... | Director |
| W. C. Gill, M. D..... | Assistant Physician |

Surgery:

| | |
|--------------------------|--------------------|
| G. W. Crile, M. D..... | Director |
| E. C. Briggs, M. D..... | Surgeon in Charge |
| R. H. Birge, M. D..... | Assistant Surgeons |
| E. Peterka, M. D..... | |
| H. L. Sanford, M. D..... | |
| E. H. Cox, M. D..... | |

Genito-Urinary Surgery:

| | |
|--------------------------|-------------------|
| W. E. Lower, M. D..... | Surgeon in Charge |
| H. L. Sanford, M. D..... | Assistant Surgeon |

Orthopaedic Surgery:

| | |
|--------------------------|-------------------|
| H. O. Feiss, M. D..... | Surgeon in Charge |
| G. N. Morrill, M. D..... | Assistant Surgeon |

Diseases of the Ear, Nose and Throat:

| | |
|------------------------------|--------------------|
| J. M. Ingersoll, M. D..... | Acting Director |
| W. B. Chamberlain, M. D..... | Surgeon in Charge |
| W. J. Abbott, M. D..... | Assistant Surgeons |
| W. S. Hobson, M. D..... | |
| G. H. Lewis, M. D..... | |
| W. A. Medlin, M. D..... | |

Diseases of the Eye:

| | |
|------------------------------|--------------------|
| B. L. Millikin, M. D..... | Director |
| W. E. Bruner, M. D..... | Surgeon in Charge |
| J. E. Cogan, M. D..... | Assistant Surgeons |
| C. F. Nelson, M. D..... | |
| W. P. Chamberlain, M. D..... | |
| I. A. Tripp, M. D..... | |
| Leo Wolfenstein, M. D..... | |

Diseases of Women:

| | |
|----------------------------|--------------------|
| Hunter Robb, M. D..... | Director |
| W. H. Weir, M. D..... | Surgeon in Charge |
| C. D. Williams, M. D..... | Assistant Surgeons |
| Howard Dittrick, M. D..... | |
| M. B. Bonta, M. D..... | |

Obstetrics:

| | |
|-----------------------------|------------------------|
| H. H. Powell, M. D..... | Director |
| A. H. Bill, M. D..... | Obstetrician in Charge |
| G. B. Farnsworth, M. D..... | Assistant Obstetrician |

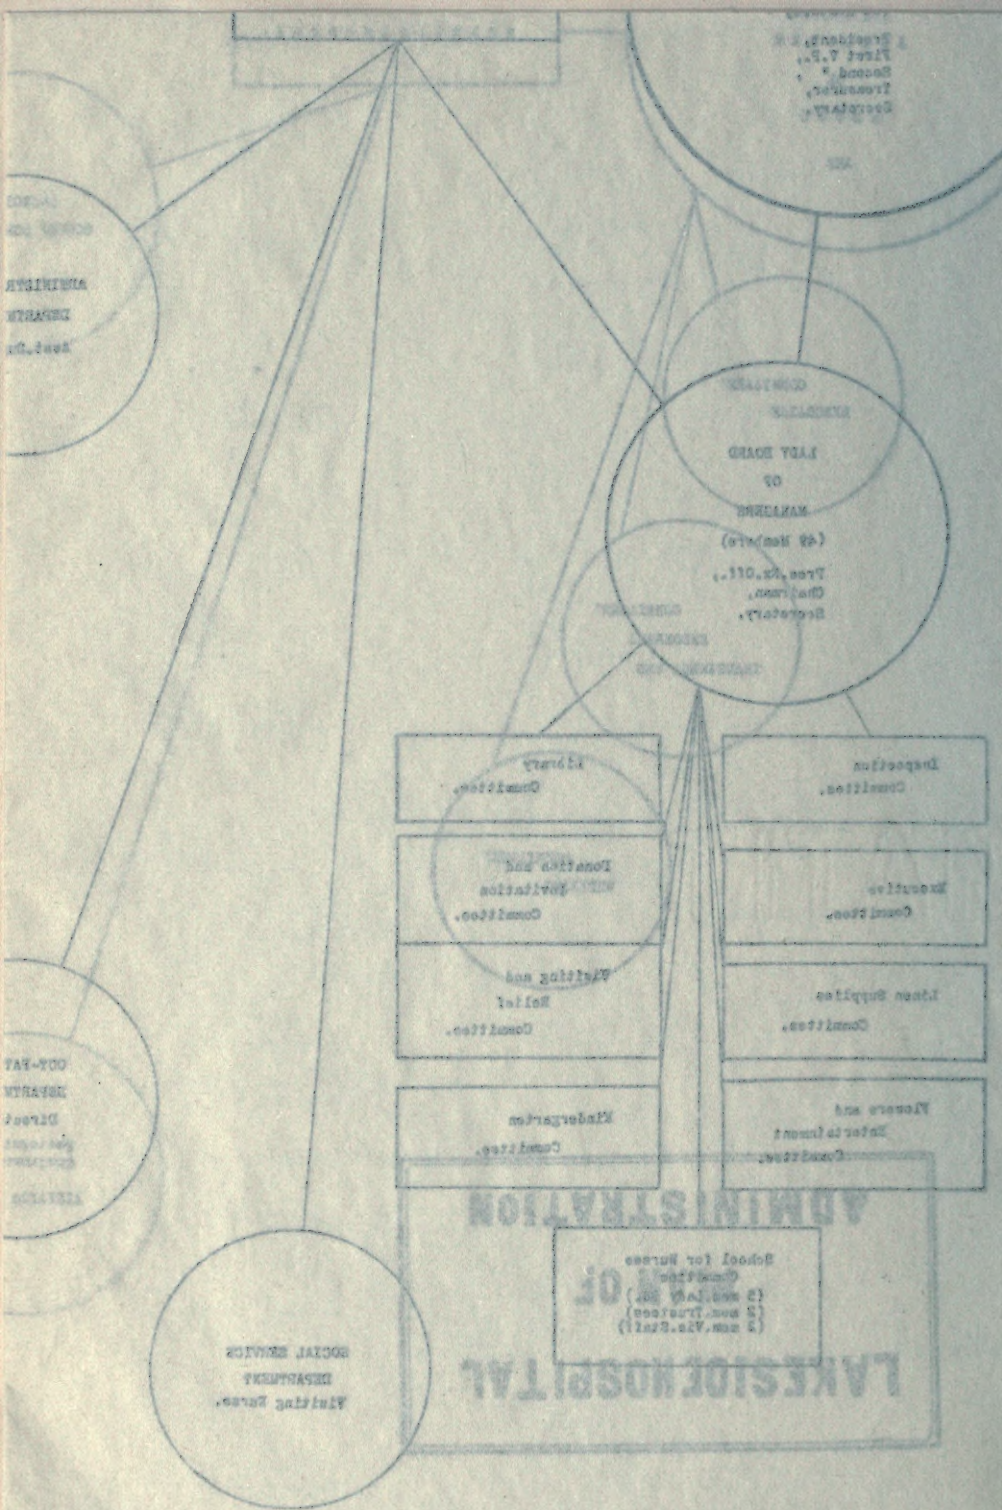

Clinical Microscopy:

| | |
|-------------------------|-----------------------|
| C. L. Cummer, M. D..... | Clinical Microscopist |
|-------------------------|-----------------------|

A Summary of the Work by Departments

Surgical Department—

| | |
|---|----------------|
| General Surgical Division..... | 2752 New Cases |
| Orthopaedic Division | 335 New Cases |

| The Medical Department..... | 2876 New Cases |
| The Gynaecological Department..... | 663 New Cases |
| The Children's Department..... | 851 New Cases |
| The Nose, Throat and Ear Department | 1955 New Cases |
| “ “ “ “ “ “ | 761 Operations |
| The Ophthalmological Department..... | 1929 New Cases |
| The Dermatological Department..... | 832 New Cases |
| The Neurological Department..... | 222 New Cases |
| The Obstetrical Department..... | 299 New Cases |

Gifts and Contributions to The Lakeside Hospital

All checks or property gifts for this institution should be sent to F. A. Scott, Treasurer of the Hospital, Guardian Savings & Trust Company, Cleveland; though they may be received by any other member of the Board of Trustees, or by the Superintendent. The donor should state distinctly whether he wishes his gift to be added to the permanent Endowment Fund of the Hospital, for the endowment of a bed, or for some other special department of the Hospital; if no specific object is mentioned, the trustees will assume that the donor intends his gift to be expended for the benefit of the Hospital in such manner as the trustees deem most necessary and advisable.

Bequests

Care should be taken that bequests be made out in the corporate name of "Lakeside Hospital," of Cleveland, Ohio, and it should be distinctly stated if it is desired that they should be devoted to any particular department, or added to any particular fund of the Hospital.

For information regarding particular needs of the Hospital, inquire of any member of the Board of Trustees, the Board of Managers, or the Superintendent.
